WINTER EDITION January 2024

the

CONSUMER report

Happy New Year! Welcome to 2024.

Time sure does fly. One thing that isn't flying is the snow! Where is all the snow anyway? It won't be hiding for too much longer as we well know January and February always brings the white fluffy stuff.

Snow is just SO beautiful. It covers everything like a fluffy white blanket and provides a beautiful backdrop for some amazing winter pictures. Let's face it, building a snowman, making snow angels, taking winter walks, bundling up and heading outdoors is fun to do this time of year.

So as we brace for whatever Mother Nature has in store for us, we can choose to stay warm and cozy inside or venture out and have a little winter fun outside. Whichever you choose, have a safe and fun winter season.

Things to Love About Winter

Hot chocolate

Fuzzy socks

Puzzles

Skating

DID YOU KNOW.....

Snow isn't just made up of snowflakes.

Snow is also made of sleet, which is created when snowflakes pass through the atmosphere and melt a little by the time they hit the ground.

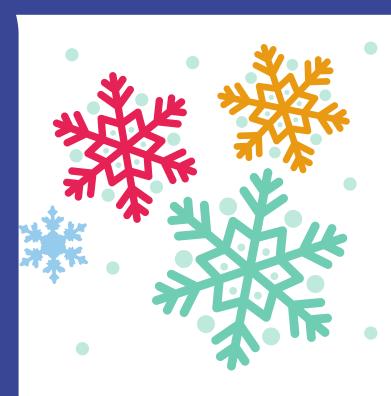

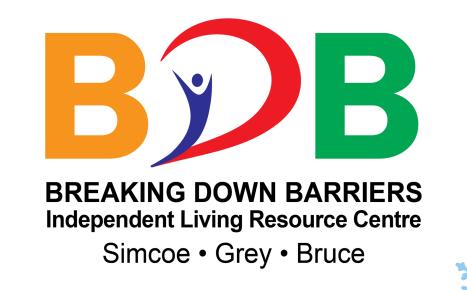

Animals feel the cold like we do. That's why it's important to keep your furry friends warm when outside in winter.
